

U.S. Electoral System

A medical team consisting of 9 doctors and medical technicians traveled to Saramiza and Lagunas in Loreto region to provide primary medical care to the residents of these riverine towns. Between March 6-22, the team was able to provide care to just over 3600 patients in primary care, dental care and optometry. The visit is organized by the U.S. Embassy Military Advisory and Assistance Group (MAAG) in coordination with Peru's Ministry of Defense and Health. The personnel traveled to Peru from the U.S. South Command.
